# 1 CYCLING AND SKATING PARADISE

Cycling in Přeboučsko

Labe Trail

The Bicycle became a traditional and common means of transport in Pardubicko thanks also to the flat landscape. As Pardubicko is flat, a bike is the most common way to get around. Cyclists can be seen everywhere. **The dense network of marked cycle routes** and the many **well-maintained cycle trails** are a real tourist attraction. The routes are mostly along class 3 roads, paved local or tertiary roads, or

along field or forest tracks. The character of the Pardubicko landscape offers some really **pleasant rides**, one of the prettiest being along the River Labe. **The flat, easy terrain** is ideal for experienced bikers as well as for families with children and the elderly, who want to enjoy the countryside or the sights.

Cycling in Bohdanečsko

Inline skating trail below Kunětická hora

To start we certainly recommend a ride through **Pardubice** itself, especially the historical centre and continuing along the **Labe Trail** following the river to the region's only hill, **Kunětická hora**. It can be hard work riding up, but the view is well worth it! it's also worth visiting the area around **Bohdanečsko**. The landscape there is closely linked to the history of Pardubicko.

The routes along the **Opatovice Canal** lead through the **Bohdaneč Pond** national nature reserve and past clear sand quarry lakes. If nature's your thing, visit **Holicko**, and the **Arboretum** in **Vysoké Chvojno**. Another great ride is along the road to **Kladruby nad Labem**, **Choltice** and the Mageo geological trail towards the **Iron Mountains**.

Inline skaters shouldn't miss the beautiful route **alongside the Labe**. All the way along it you can see yourself approaching the castle of **Kunětická hora**. Just as nice is the route from Pardubice to **Staré Jesenčany**. With a bit of luck you might see a jumbo jet landing at the nearby **Pardubice Airport**. Near the castle, at the **Golf Resort Kunětická Hora**, there is a 4-km asphalted circuit. With its undulating

surface this is ideal for inline skating. There is another good asphalted surface on the trails from **Lázně Bohdaneč to Semtín** or the more challenging route through the woods **from Veliny to Borohrádek**. Along the way you can freshen up, have a snack or visit some other interesting tourist attractions!

## PARDUBICKO ON THE WATER

Bohdaneč ponds

Opatovice Canal

Not everyone knows that Pardubicko is rightly considered an **area rich in ponds**. They used to cover an even bigger area than those in South Bohemia. The ones that have remained are now widely used. Some of them are **national natural monuments**, are used to hold social and food-related events, are **part of educational trails** or are simply a **place to relax**. One unique water attraction in Pardubicko is

undoubtedly **Opatovice Canal**. The canal is also used by rafters, including beginners, as the water is so calm. We must mention **fishing**, which some people do to relax, while others see it almost as an adrenalin sport. We have plenty more tips for fun and relaxation, too!

Hrádek beach

You can also have a great time on the water and on dry land where the region's two largest rivers meet, the **Labe and the Chrudimka**. For something different there are some exciting new sports to try. **Park Na Špici** offers fun in the form of inflatable water attractions and paddleboarding, an entertaining water discipline, where besides boarding you can also try yoga, fitness or a night-time **ride down**

**from Kunětice to Pardubice**. You can also get to Kunětice on the **Arnošt of Pardubice cruiser**, which takes tourists from the main harbour in Pardubice. A cruise on the Arnošt is a really **unique experience!** You can also freshen up at the **Cihelna pool** or in Pardubice **aqua-centre** with its summer beach.

If you prefer **the countryside**, try a swim in the **clear water** of the former **sand quarries**. Children can have fun on the bank or in the water, always with a gentle slope. There's plenty to choose from for those who want to be more active by the water. At the quarries you can try **windsurfing and diving**. At **Hrádek beach** you can play beach volleyball or go **water skiing in Mělice**. In Pardubicko you

can stay at several camps with natural pools, ideal for sporty people and families with children. The water season doesn't end with the summer. On the October holiday the fish are harvested from **Bohdaneč Pond**, with fish specialities and other events on offer.

**Horses** are one the **biggest attractions** in Pardubicko. Proof that they are special can be seen in the **city emblem**, as well as the world-famous **Velká Pardubická**, one of the toughest races in Europe. One wholly unique sight is the **stud farm in Kladruby nad Labem**, famous for breeding Old Kladrubers. Pardubicko also has plenty of places to enjoy a great holiday in the saddle. There are several riding

routes; a 20-km route runs through the **centre of Pardubice**, while a route almost 70 km long leads through Chrudimsko-Hlinecko and **all over Pardubicko**. The longest goes from the Krkonoše **through Lázně Bohdaneč** to Vysočina. There are some unconventional ways to see Pardubicko, so come and try them!
